### **South Gate construction begins at Patrick SFB, Jan. 27, 2025**

The Patrick Space Force Base South Gate construction project begins Mon., Jan. 27 and is expected to continue until late spring or early summer of 2026. A full closure on Feb. 2 is scheduled, reopening Feb 3.

#### **Key points during construction:**

- **Full closure Feb. 2:** The South Gate will be completely closed on Sunday, Feb. 2, to allow contractors to implement a new traffic pattern. It is expected to reopen the morning of Monday, Feb. 3.
- **Reduced Capacity:** The South Gate will remain open during construction but will run at reduced capacity, with only one inbound and one outbound lane. Occasional full closures will be necessary to adjust the traffic pattern.
- **Patrick SFB East Gate encouraged:** To alleviate congestion and enhance safety, personnel and visitors are encouraged to use the East Gate (off A1A Hwy.) as much as possible, especially to avoid congestion on the Pineda Causeway ramps.
- **Occasional Closures:** There will be occasional closures to accommodate adjustments in traffic patterns as the project progresses.
- **Access to Golf Course, Marina:** The Golf Course and Marina will remain accessible throughout the project.
