

# SLD 45 FY25 Decentralized Facilities Sustainment, Restoration, and Modernization Program Forecast

The Forecast of Contracting Opportunities (FCO) contains planned acquisitions for informational purposes only. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid (IFB), request for quote (RFQ) or request for proposal (RFP) and is not a commitment by to purchase the desired products and/or services. The requirements may or may not be executed and are contingent upon changing priorities, funding, permits, and other factors that may affect the requirements. All acquisition data and strategies are subject to change based on market research and as the requirements are further defined. Requirements listed as "SBSA" means that the requirement will be set aside for small businesses, but the specific socioeconomic category may not have been determined at the time of this publication and will ultimately be determined by market research (if necessary). Small businesses are highly encouraged to respond to Sources Sought Notices and Request for Information, a form of market research.
